Using a Shared Mailbox [Shared Mailbox]

There are some mailboxes in our infrastructure that are used by multiple users at the same time.

There is a nice explanation about this directly from Microsoft.

Here is an **incomplete** list of such mailboxes:

- Atlas.Krefeld@gemo.de
  This mailbox is used in Krefeld for communication with customs.
- Einkauf@gemo.de
  This mailbox is used by the purchasing department as a collective mailbox.

- Schedules@gemo.de
  This mailbox is used by the sales department to receive delivery schedules and make them available to several colleagues.

- Sales.Shanghai@gemo.de
  This mailbox is used in Shanghai for communication with some customers and to share this communication with several colleagues.
